Subject: Notification per PRN 98-10 – Minor Label Revisions
Product Name: Oxy-1 RTU
EPA Registration Number: 74559-9
Application Date: 04/04/2018
Decision Number: 541420

Dear Mr. Chum:

The Agency is in receipt of your Application for Pesticide Notification under Pesticide Registration Notice (PRN) 98-10 for the above referenced product. The Antimicrobials Division (AD) has conducted a review of this request for its applicability under PRN 98-10 and finds that the action requested falls within the scope of PRN 98-10.

The label submitted with the application has been stamped “Notification” and will be placed in our records.

Should you wish to add/retain a reference to the company’s website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product’s label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA’s Office of Enforcement and Compliance.

If you have any questions, you may contact Terria Northern at 703-347-0265 or via email at northern.terria@epa.gov.

Sincerely,

A handwritten signature in black ink, appearing to read "Zeno Bain", written over a horizontal line.

for

Zeno Bain, Product Manager 33
Regulatory Management Branch I
Antimicrobials Division (7510P)
Office of Pesticide Programs

Cleans [fast] [in kitchen[‡]] [and bathrooms]
Cleans [removes] [eliminates] [destroys] baked-on food
Cleans [removes] [eliminates] [destroys] burnt-on food
Cleans [tough] grease and grime
Cuts [cleans] kitchen[‡] [and] [bathroom] [and] household grime and soils [fast]
Cleans [and disinfects] hard, non-porous surfaces {or *insert any hard non-porous surface from table 10 and 14*}
[found] [in] [hospitals] [health care facilities] [offices] [colleges] {or *insert any institutional use site from table 11 or household use site from table 15*}

Clean you expect.
Cleans [fast]
Cleans [removes] [eliminates] [destroys] stains
Cleans [tough] grease and grime [and][institutional][soils][fast]
Cleans [tough] soap scum
Cleans without bleaching
Cleans and disinfects non-food contact hard non-porous surfaces (kitchens[‡] and) (bathrooms) (restrooms)
Cleans, kills and prevents mold and mildew
Controls (Eliminates) (kitchen[‡]) odor-causing bacteria
Contains no [abrasives] [bleach]
Compatible with [equipment] and [hard] [non-porous] surfaces
Compatible with microfiber [cloths]
Contains no phosphates
Contains no (abrasives) (bleach) (or harsh acids)
Compatible with [Suitable for][Will not harm] most hard non-porous [house hold] surfaces, [no bleach (or chlorine) stains]
Crime scene disinfectant [and cleaner]
Disinfect in one easy step
Deodorizes
Designed specifically to [effectively] eliminate odors caused by mold and mildew
Disinfects (Deodorizes) (and Sanitizes) as it cleans
Disinfects (Deodorizes) hard, non-porous surfaces
Disinfects as it cleans
Disinfects - kills germs for a deep down clean
Designed for the needs of the restoration contractor
Destroys bacteria *viruses, fungi, [†]mycobacteria and mildew on hard non-porous surfaces found in swine, poultry, dairy, equine farms and animal holding and research facilities
Deodorizes odor-causing bacteria
Dual action formulation providing broad spectrum activity against; fungi, [†]mycobacteria, *viruses, and bacteria
Easy to use – just spray [and][walk away]
Effective – Cleans soap scum
Effective cleaner and disinfectant for crime scenes
[Effective] Fungicide
Eliminates bacteria from (kitchen[‡]) (bathroom) (washroom) (restroom) surfaces
Eliminates (kills) odor-causing bacteria
Eliminates odors [caused by bacteria], [fungi] [mold], [mildew]
Fast / Easy / Effective: Use [in] [on] [the] {*insert any institutional use sites from table 11*} {OR} {*insert any residential use sites from table 15*}

{Note to Agency: Text appearing in [brackets] or (parenthesis) is done to show interchangeable or optional text. Any language which appears between { braces } and is italicized is for administrative purposes only and will NOT appear on final printed label. For Indoor and Outdoor Use

For multiple cleaning tasks

For use as a mold remediation treatment [where mold is a problem]

For use [in] [Hospitals], [Health Care], [Daycare] settings [as a multi-purpose disinfectant cleaner].

For use in [[Crime] [and] [Trauma] Scene Clean-Up] [Mold & Remediation] [Water/Flood Damage Restoration] [Equipment and PPE Disinfection (Non-Critical Devices)] [Carpet Cleaning & Deodorizing] [Grey or Black Water] [Damage][and][Trauma] [Sewage] [Backflow] [Mold Restoration] [Catastrophic events and gross contamination] [HVAC] [Applications]

For use as a mold preventative or remediation treatment in areas where mold can or has been a problem

For use on mannequins

Formulated with patented hydrogen peroxide technology

For everyday use [in institutional and (industrial) (institutional) facilities]

For a cleaner, fresher office (school) (college)

For any non-food contact hard, non-porous surface where germs are a concern.

For use [in] [on] [the] *{insert any institutional use site from table 11}* *{insert any residential use sites from table 15}* [as a multi-purpose disinfectant cleaner]

For non-scratch cleaning of showers and tubs, shower doors and curtains^f, fixtures and toilet bowls

For multiple cleaning tasks

For use [in] [Household], [Homecare], [Daycare] settings [as a multi-purpose disinfectant cleaner].

For everyday use [in kitchens[‡] and] [bathrooms] [restrooms]

For a cleaner, fresher household

For everyday use

For use[in] [on] [the] *{insert any residential/household use site from table 15}* [as a multi-purpose disinfectant cleaner]

For Use in Laboratory Settings and Alternate Care Clinics

Fungistat

Good for most indoor cleaning tasks

Great (Ideal) for travel

Great (Ideal) when you are on-the-go

Help make your *{insert any use site from table 11 or table 15}* [insert product name] Clean

Hydrogen Peroxide (based) disinfectant

For use in Homecare

(Ideal for use in) Remediation and Restoration Sites (Sewage, Water, Flood, Trauma, and/or Fire Scenes)

Ideal for cleaning and disinfection of surfaces in critical environments for contamination control

Ideal product for use in LEED Certified buildings

[This product is used to] Inhibit[s] or prevent[s] the growth of mold organisms when materials are subjected to moist or wet environments

Ideal for: [[Mold & Mildew Remediation Sites][Professional Restoration Sites][Sites [Sewage Backflow Sites][Water / Flood Damage Sites][Trauma / Crime Scene / Fire Scene Clean Up][Carpet Cleaning & Deodorizing (Remediation)][Equipment & PPE Disinfection]]

Intense cleaning action

Keeps day care centers clean

Kills Bacteria in 1 minute

Kills *Viruses in 30 seconds

Kills [99.9% of] germs [in 1 minute]

Kills [99.9% of] [the] [cold and flu viruses^o] in 30 seconds

{Note to Agency: Text appearing in [brackets] or (parenthesis) is done to show interchangeable or optional text. Any language which appears between { braces } and is italicized is for administrative purposes only and will NOT appear on final printed label. Kills antibiotic resistant bacteria**
Kills and controls mold, mildew, fungus and bacteria
Kills bacteria
Kills bacteria commonly found in the (kitchen[‡]) (and) (bathroom)
Kills [Effective against] cold and flu virus[°] [on hard, non-porous surfaces]
Kills Fungi, Mildew, Bacteria, *Viruses, [†]Mycobacteria (in 60 seconds!)
Kills germs
Kills germs while it cleans
Kills household bacteria
Kills (household) bacteria (and sanitizes)
Kills kitchen[‡] and bathroom bacteria
Kills mold and mildew [when used as directed] [on roofs[±]]
Kills odor-causing bacteria
Kills odor-causing (household) bacteria
Kills (Destroys) (Eliminates) germs
Kills (Destroys) (Eliminates) germs while it cleans
Kills (Eliminates) odor-causing bacteria in the (kitchen[‡]) (bathroom) (restroom) (all around the house)
Kills (kitchen[‡]) (bathroom) (household) germs
Kills bacteria commonly found in kitchens[‡] (in 1 minute)
Kills bacteria and *viruses on hard, non-porous (kitchen[‡]) (bathroom) (restroom) (household) surfaces in 1 minute
Leaves [a fresh, clean scent] [no [dull] [sticky] residue].
Leaves [office] [washroom] [restroom] smelling clean with a clean fresh scent
Leaves surfaces virtually streak-free
Leaves your [home] [house] [washroom] [restroom] smelling clean with a clean fresh scent
Leaves your kitchen[‡] and bathroom with a fresh, clean scent
Lowest EPA toxicity category in all 6 toxicity studies
Mildewstat
Meets USP (<1072>) Standards for Disinfectants
Mold & Mildewcide
Mold & Mildew Eliminator
Mold & Mildew Stain Remover
Neutralizes musty odors
Neutralizes tough odors from smoke
No Fragrance added {*only for non-fragranced CSFs*}
No harsh [chemical] fumes
No streaking [filming] [sticky residue]
Non-tainting, leaves no unsightly residues
[No rinse required]. No streaking [or filming] formula
Non-corrosive [to eyes] [and] [skin]
No mixing, measuring or rinsing required
Not a skin [Dermal] sensitizer [non-sensitizer]
Odor Control
OSHA Bloodborne Pathogen Standard Compliance
*Parvocidal
Phenol free

{Note to Agency: Text appearing in [brackets] or (parenthesis) is done to show interchangeable or optional text. Any language which appears between { braces } and is italicized is for administrative purposes only and will NOT appear on final printed label. Powerful cleaning

Powers away tough stains [stuck on dirt]

Powerful bubbles blast away [dried] [stuck on] dirt [grime] [food] [spills] [grease] [greasy messes]

Powerful odor control [odor neutralizer] [deodorizer] [odor-counteractant] formula [on hard non-porous surfaces]

Phenol free [No phenols]

Prevents mold & mildew

Primary Skin Irritation Category IV

Primary Eye Irritation Category IV

§Pseudomonacidal

Quat free

Quaternary Ammonium Compound Free [No Quaternary Ammonium Compounds]

Quickly [eliminates] [removes] [food] odors

Removes [the most common] [household] allergens [around your home] [around your kitchen[‡]] [around your bathroom] [on your floors]⁺⁺

{Note: the sentence above will be used with this claim qualifier}: ⁺⁺This product [or product name] removes the following [non-living] allergens: [cat dander], [cockroach matter], [cockroach debris], [cockroach particles], [dog dander], [dust mite debris], [pet dander], [pollen particles]

Removes (lipids) (fats) (proteins) *{insert one or more soils from table 8: Institutional soils}*

Sanitizes in 10 seconds!

Smell of clean [is no smell]

Specially designed to dissolve [penetrate] the toughest [stubborn] soils

Suitable for everyday use

Surface cleaner (with antibacterial formula)

Suitable for use on floors, equipment, cages and kennels, when used as directed

(Stain) (Mold) (Mildew) (Remover), (Cleaner), (Disinfectant)

Step-saving, Labor-saving, Time-saving, Cost-saving formula

This product may be used as a cleaner and deodorizer, or for water/flood clean up, sewage backflow cleaning, and trauma scene cleaning

This product cleans, deodorizes, and controls the growth of damage and odor-causing bacteria

This product inhibits the growth of damage and odor-causing bacteria and fungi on treated articles and surfaces, such as construction materials[±].

This product is used to protect treated articles from decay, mold or mildew.

This product inhibits bacterial growth on moist surfaces and deodorizes by killing microorganisms that cause offensive odors.

This product inhibits the growth of mold and mildew and their odors when used as directed.

This product kills mold and mildew when used as directed.

To clean, kill and prevent mold and mildew

To be used in sanitizing and disinfecting of hard, non-porous non-food surfaces and non-critical equipment which may harbor or spread germs

[Tough on germs.] [Easy on you.]

Use only one product to get a streak-free shine plus antimicrobial action

Use this product [or product name] throughout your home to clean [beverage stains] [dirt] [food stains] [grime] [pet stains] [soap scum]

[Uses] [harnesses] the cleaning power of hydrogen peroxide

Use only one product to get a streak-free shine plus antimicrobial action

{Note to Agency: Text appearing in [brackets] or (parenthesis) is done to show interchangeable or optional text. (FEATURES, CLAIMS & USES:)

[Notice to User: This product {or product name} may not be suitable for all items or surfaces. Prolonged exposure to copper, brass, anodized aluminum and some coatings should be avoided. If you are uncertain as to the material composition of your item, confirm with the manufacturer before proceeding [or visit the Compatibility section on www.virox.com for a listing of compatible materials.]]

(For General Uses – Medical and Dental)

For Use in Health Care, [Dental], [Medical] [Facilities] and [Hospitals][Nursing Homes][clinics]{or *insert any of the Medical/Dental Institutional Use sites from table 11*}

This product [or product name] is a one-step (hospital-use) germicidal (disinfectant) cleaner and deodorant (deodorizer) (odor-counteractant) (odor neutralizer) designed for general cleaning, (and) disinfecting, (deodorizing) (of) hard, non-porous environmental surfaces.

It cleans quickly by removing *{insert any soil from table 8}* found in *{insert any of the Medical/Dental Institutional Use sites from table 11}*.

This product [or product name] is designed for use on hard, non-porous environmental surfaces: *{insert any surface material from table 9}* associated with [high] hand touch environmental surfaces [floors], [walls], [ceilings] – *{or insert any Medical/Dental hard non-porous surface from table 10}* – or – any hard non-porous washable (non-food contact) surface where disinfection is required. (This product's non-dulling formula eliminates the time and labor normally required for rinsing). (It also) reduces odor-causing bacteria leaving surfaces smelling clean and fresh).

(For Veterinary Use) (For Farm and Barn Use)

For Use in Veterinary clinics,[Animal] [Premises] [facilities] [such] [as] [Pet shops], and [Animal [Life Science] Laboratories][Animal Housing][Animal Quarters & Kennels]{or *insert any of the Animal Premises Institutional Use sites from table 11*}

This product [or product name] is a one-step germicidal [disinfectant] [cleaner] [and] [deodorant] [deodorizer] [odor-counteractant] [odor neutralizer] designed for general cleaning, (and) disinfecting, (deodorizing) (of) hard, non-porous environmental surfaces.

It cleans quickly by removing *{use any soil from table 8}* found in [Animal] [Premises] [facilities] [such] [as] *{insert any of the Animal Premises Institutional Use sites from table 11}*.

This product [or product name] is designed for use on hard, non-porous environmental surfaces: *{insert any surface material from table 9}* associated with [high] [hand] touch environmental surfaces, [floors], [walls], [ceilings] – *{or insert any Veterinary hard non-porous surface from table 10}* – or – any hard non-porous washable (non-food contact) surface where disinfection is required. (This product's non-dulling formula eliminates the time and labor normally required for rinsing). (It also) reduces odor-causing bacteria leaving surfaces smelling clean and fresh).

(For Miscellaneous Use)

{Note to Agency: Text appearing in [brackets] or (parenthesis) is done to show interchangeable or optional text. Any language which appears between { braces } and is italicized is for administrative purposes only and will NOT appear on final printed label. Variables such as CAPITALIZATION, plurals or singular, bold and italics are optional unless specified in 40 CFR. Listed uses and use sites can be used partially or in their entirety. Underlined text is new. Strike-through text means it has been removed.}

For Use [in] [on] [at] [Public areas], [Retail Businesses], [Office Buildings], [Educational Institutions], [Public Transportation System], [Transportation Terminals], [Lodging Establishments], [Athlete/Recreational Facilities], [Non-food handling areas of Food Services Establishments/Restaurants] and [Manufacturing facilities] [such as] *{or insert any of the Miscellaneous Institutional Use site from table 11}*

This product [or product name] is a one-step germicidal [disinfectant] [cleaner] [and] [deodorant] [deodorizer] [odor-counteractant] [odor neutralizer] designed for general cleaning, (and) disinfecting, (deodorizing) (of) hard, non-porous environmental surfaces.

It cleans quickly by removing *{insert any soil from table 8}* found in *{insert any of the Miscellaneous Institutional Use site from table 11}*.

This product [or product name] is designed for use on hard, non-porous environmental surfaces: *{insert any surface material from table 9}* associated with [high] [hand] touch environmental surfaces, [floors], [walls], [ceilings] – *{or insert any Miscellaneous hard non-porous surface from table 10}* – or – any hard non-porous washable (non-food contact) surface where disinfection is required. (This product's non-dulling formula eliminates the time and labor normally required for rinsing). (It (also) reduces odor-causing bacteria leaving surfaces smelling clean and fresh).

(For Use in Spas, Salons & Clinics)

(Footbaths (pedicure foot spa equipment) in Health clubs, spas, tanning salons, tanning spas, hair/nail/pedicure salons, barber/beauty shops, salons, tattoo parlors:)

This product [or product name] is a one-step (hospital-use) (germicidal) disinfectant cleaner, (*virucide) (and) (deodorant) (odor-counteractant) (odor neutralizer) designed for cleaning, (and) disinfecting, (and) (deodorizing) (on) (of) hard, non-porous footbath surfaces. It cleans quickly by removing body oils, dead tissue, soil and all other buildups or organic matter (found) on (hard non-porous (inanimate) (environmental)) footbath surfaces.

This product (or Product Name) (is) (are) designed for cleaning and disinfection of hard non-porous surfaces in (beauty salons), (tanning facilities), (spas), (nail salons), (tattoo parlors), (barbershops), (and) (hairstyling establishments) (clinics). It cleans by removing body oils, dead tissue, soil and all other buildups or organic matter found on hard nonporous surfaces (or footbaths).

It is designed for use on (Use daily on) (hard, non-porous environmental (inanimate) (surfaces) (such as) (of) footbaths (pedicure foot spa equipment) (and) (esthetic tools and equipment).

[For Use on] [Disinfection of] Surfaces in (Pharmaceutical) (and) (Cosmetic) Processing Facilities:

This product [or product name] is recommended for use on hard, non-porous environmental surfaces such as floors, walls and processing equipment in (pharmaceutical) (and) (cosmetic) processing facilities.

[For Use in] Mold & Mildew Remediation & Restoration:

{Note to Agency: Text appearing in [brackets] or (parenthesis) is done to show interchangeable or optional text. Any language which appears between { braces } and is italicized is for administrative purposes only and will NOT appear on final printed label. Underlined text is new. Strike-through text means it has been removed.}

This product is ideal for use as a cleaner, disinfectant and deodorizer in mold and mildew remediation sites, professional restoration sites, sewage backflow sites, water and flood damage sites, trauma, crime scene and fire clean up. This product was designed to leave surfaces clean and odor free.

Water / Flood Damage

This product kills the growth of mold and mildew, fungi, and bacteria, and the odors caused by them on hard, non-porous environmental surfaces as a result of water and flood damage.

Sewage Backflow

This product is a broad-spectrum cleaner disinfectant that kills pathogens and odor causing organisms left from raw sewage and black water contamination.

Trauma, Crime Scene, and Fire Clean Up

OSHA Bloodborne Pathogen Standard Compliance. This product effectively cleans and disinfects surfaces and equipment that come into contact with blood and other potentially infectious materials (OPIM) containing pathogenic organisms, which cause infection and disease in humans.

Carpet Cleaning & Deodorizing

This product was designed to be an effective cleaner by removing soils, grime and other deep down, stubborn dirt for easy removal or extraction.

Equipment and PPE Disinfection(Non-Critical Devices)

To prevent cross contamination between treated surfaces, this product is effective for cleaning and disinfecting reusable person protective equipment (PPE), gear, tools, and restoration equipment after removal from containment areas.

[HVAC]

[This product is suitable for HVAC applications including [coils and] drain pans of HVAC/R equipment, air conditioning and refrigeration equipment and heat pumps.]

[For Use in (Laboratory Settings) (and) (Alternate Care Clinics)]This product is ideal for use as a cleaner and disinfectant in Laboratory Settings such as (Life Sciences), (CAT Laboratories), (Pharmacies), (Animal Life Science Laboratories), (Vivariums), (Cleanrooms), (Critical Environments), (GMP facilities), (Compound pharmacy labs), (Biopharmaceutical), (Medical device facilities), and (FDA regulated sites). (Well below OSHA hydrogen peroxide permissible exposure limit of 1ppm)

This product is ideal for use as a cleaner and disinfectant in Alternate Care Settings, Clinics & Offices such as (Sleep Therapy), (Respiratory Therapy), (Ophthalmic), (Massage), (Chiropractic), (Acupuncture), (Naturopathic), (Homeopathic), (Home Healthcare), (Otolaryngology (ear, nose and throat)), (podiatry), (foot care nursing), (midwifery). This product can also be used in (Emergency Care) (EMS) (Fire / Police / Ambulance), (Transportation Facilities) and (Airports).

This product is a one-step germicidal disinfectant cleaner and odor neutralizer designed for cleaning and disinfecting of hard, non-porous environmental surfaces. This product cleans by removing dirt, grime, food

{Note to Agency: Text appearing in [brackets] or (parenthesis) is done to show interchangeable or optional text. Any language which appears between { braces } and is italicized is for administrative purposes only and will NOT appear on final printed label. Variables such as CAPITALIZATION, plurals or singular, bold and italics are optional unless specified in 40 CFR. Listed uses and use sites can be used partially or in their entirety. Underlined text is new. Strike-through text means it has been removed.}

residue, dead skin, blood, biological waste (feces, urine, etc), and other organic matter commonly found on surfaces. This product was designed to leave surfaces clean, disinfected and odor free.

This product cleans, disinfects, and deodorizes hard, nonporous environmental surfaces in one step. Its non-abrasive formula is designed for use on the following non-porous environmental surfaces: *{insert any surface material from table 9}* associated with floors, walls, ceilings, tables, chairs, countertops, telephones, fixtures, (fume hoods), (vivariums), (cages), (carts), (workstations), and (sinks), including those found in (laboratory settings).

[For] [Residential Use][Home][Household]

This product [or product name] is an effective [cleaner] [disinfectant] [sanitizer] on non-food contact surfaces in [around] [Residential], [Household], [Homecare], [Daycare centers], [Nursing homes] [settings].

This product [or product name] is a[n] [Antibacterial][Multi-Purpose][Bathroom][Floor][Glass & Surface] [Kitchen[‡]] [Restroom] [Cleaner] [Cleaning] [Disinfectant] [Disinfecting] [Sanitizer]. This product is for use [in] [on] [the] *{insert any residential/household use sites from table 15}* [common hard non-porous household surfaces].

For everyday cleaning [and disinfecting] [use daily to clean [and disinfect]] [on] hard, non-porous surfaces [where germs are a concern] [made from] *{insert any surface material from table 13}* associated with kitchen[‡] surfaces, [high] [hand] touch surfaces, *{or – insert any of the hard non-porous surfaces listed in table 14}* and other hard [non-food contact] surfaces around the house [hold] [home]. [Not recommended for use on brass], [polished wood], [granite], [marble], [and] [leather].

{Claims against Emerging Viral Pathogens}

This product qualifies for emerging viral pathogen claims per the EPA’s ‘Guidance to Registrants: Process for Making Claims Against Emerging Viral Pathogens not on EPA-Registered Disinfectant Labels’ when used in accordance with the appropriate use directions indicated below.

This product meets the criteria to make claims against certain emerging viral pathogens from the following viral category[ies]:

- Enveloped Viruses
- Large, Non-enveloped viruses
- Small, Non-enveloped viruses

For an emerging viral pathogen that is a/an...	...follow the directions for use for the following organisms on the label:
Enveloped virus	Poliovirus Type 1 (Strain Chat)
Large non-enveloped virus	Poliovirus Type 1 (Strain Chat)

The following are examples of additional Terms of Registration that EPA anticipates resulting from a request to amend a registration for the reasons addressed in EPA's 2016 Guidance to Registrants: Process for Making Claims against Emerging Viral Pathogens Not on EPA Registered Disinfectant Labels:

{Note to Agency: Text appearing in [brackets] or (parenthesis) is done to show interchangeable or optional text. Any language which appears between { braces } and is italicized is for administrative purposes only and will NOT appear on final printed label. Variables such as CAPITALIZATION, plurals or singular, bold and italics are optional unless specified in 40 CFR. Listed uses and use sites can be used partially or in their entirety. Underlined text is new. Strike-through text means it has been removed.}

The statements shall be made only through the following communications outlets: technical literature distributed exclusively to health care facilities, physicians, nurses and public health officials, "1-800" consumer information services, social media sites and company websites (non-label related). These statements shall not appear on marketed (final print) product labels.

Acceptable claim language:

[Product name] has demonstrated effectiveness against viruses similar to [name of emerging virus] on hard, [porous and/or non-porous surfaces]. Therefore, [product name] can be used against [name of emerging virus] when used in accordance with the directions for use against Poliovirus type 1 on [hard, porous/non-porous surfaces]. Refer to the [CDC or OIE] website at [pathogen-specific website address] for additional information.

{OR}

[Name of illness/outbreak] is caused by [name of emerging virus]. [Product name] kills similar viruses and therefore can be used against [name of emerging virus] when used in accordance with the directions for use against Poliovirus type 1 on [hard, porous/non-porous surfaces]. Refer to the [CDC or OIE] website at [website address] for additional information.

{Soft Surface Sanitization claims}

For use on [hard to launder] soft surfaces[‡] *{-or- insert any soft surfaces from table 16}* found in [Hospitals], [nursing homes], [healthcare facilities], [Dental offices], [medical offices], [and] [household].

{Soft Surface Sanitization short claims}

- A proven sanitizer on soft surfaces[‡]
- An effective soft surface[‡] sanitizer
- Great for use on soft surfaces[‡] such as *{insert soft surfaces from table 16}*
- Kills microorganisms on [hospital] soft surfaces[‡] -or- fabric[‡] -or-*{insert soft surfaces from table 16}*
- [‡]Kills 99.9% of [*Enterobacter aerogenes* [ATCC 13408]] [and][*Staphylococcus aureus* [ATCC 6538]] on (insert usage surface)
- One-step cleaner sanitizer on soft surfaces[‡]
- Removes –and/or- Eliminates odors by killing odor-causing bacteria on [soft surfaces[‡]] [fabrics[‡]] *{-or- insert soft surfaces from table 16}*
- Sanitizes by killing *Enterobacter aerogenes* and *Staphylococcus aureus* on soft surfaces[‡] in 1 minute
- Sanitizes fabric[‡] -or- soft surfaces[‡] -or- *{insert soft surfaces from table 16}*
- Sanitizes soft surfaces[‡] in one step
- Sanitizes soft surfaces[‡] [in 1 minute]
- Soft surface[‡] -or- fabric[‡] sanitizer
- Use on *{insert soft surfaces from table 16}* [and other soft surfaces[‡]]

{Soft surface qualifier}:

[‡] composed of cotton or polyester

Claims [See Reference sheet for a complete list of [pathogenic]organisms][this product {or product name} is effective against] [A powerful disinfectant effective against]:

{Note to Agency: Text appearing in [brackets] or (parenthesis) is done to show interchangeable or optional text. Any language which appears between { braces } and is italicized is for administrative purposes only and will NOT appear on final printed label. Variables such as CAPITALIZATION, plurals or singular, bold and italics are optional unless specified in 40 CFR. Listed uses and use sites can be used partially or in their entirety. Underlined text is new. Strike-through text means it has been removed.}

{Note to reviewer: ATCC numbers are optional and might not appear on the final label}

BACTERICIDAL [Kills] [Effective Against] [Bacteria] [in 1 minute] [against]:

{Table 1: Bactericidal Claims}

[Bacteria][Bactericidal] (Activity)	Contact Time
<i>Acinetobacter baumannii</i> (~Multi-Drug Resistant (MDR)) (ATCC 19606)	1 minute
<i>Bordetella bronchiseptica</i> [ATCC 10580]	1 minute
<i>Bordetella pertussis</i> [ATCC 12743]	1 minute
<i>Burkholderia cepacia</i> [ATCC 25416]	1 minute
<i>Chlamydia psittaci</i> (Strain 6 BC) [ATCC VR-125]	1 minute
<i>Enterobacter aerogenes</i> [ATCC 13048]	1 minute
<i>Enterobacter cloacae</i> (New Delhi metallo-β-lactamase 1 [positive][producing] (NDM 1)) [CDC 1000654]	1 minute
<i>Enterococcus faecalis</i> (Vancomycin Resistant (VRE)) [ATCC 51575]	1 minute
<i>Enterococcus faecium</i> [ATCC 51559]	1 minute
<i>Escherichia coli</i> [ATCC 11229]	1 minute
<i>Escherichia coli</i> O157:H7 [ATCC 35150]	1 minute
<i>Escherichia coli</i> (Extended Spectrum Beta-lactamase (ESBL) [producing][positive]) [ATCC BAA-196]	1 minute
<i>Escherichia coli</i> (New Delhi metallo-β-lactamase 1(NDM-1) [producing][positive]) [CDC 1001728]	1 minute
<i>Klebsiella pneumoniae</i> [ATCC 4352]	1 minute
<i>Klebsiella pneumoniae</i> (Carbapenem Resistant (CRE))[ATCC BAA 1705]	1 minute
<i>Klebsiella pneumoniae</i> (Extended Spectrum Beta-lactamase (ESBL) [producing][positive]) [ATCC700603]	1 minute
<i>Klebsiella pneumoniae</i> (New Delhi metallo-β-lactamase 1 (NDM-1) [positive]) [CDC 1000527]	1 minute
<i>Legionella pneumophila</i> [ATCC 33153]	1 minute
<i>Listeria monocytogenes</i> [ATCC 19117]	1 minute
<i>Pasteurella multocida</i> [ATCC 12947]	1 minute
<i>Pseudomonas aeruginosa</i> [ATCC 15442]	1 minute
<i>Pseudomonas aeruginosa</i> (Metallo-beta lactamase (MBL) positive (CDC 2012059))	1 minute
<i>Salmonella enterica</i> (formerly known as <i>Salmonella choleraesuis</i>) [ATCC 10708]	1 minute
<i>Serratia marcescens</i> [ATCC 14756]	1 minute
<i>Shigella dysenteriae</i> [ATCC 11835]	1 minute
<i>Staphylococcus aureus</i> [ATCC 6538]	1 minute
<i>Staphylococcus aureus</i> [Community Acquired Methicillin Resistant Genotype USA 400 (CA-MRSA 400)]	1 minute
<i>Staphylococcus aureus</i> (Methicillin Resistant (MRSA)) [ATCC 33592]	1 minute
<i>Staphylococcus aureus</i> (Vancomycin Intermediate Resistant (VISA)) [HIP 5836]	1 minute
<i>Staphylococcus aureus</i> (Vancomycin Resistant (VRSA)) [VRS1]	1 minute
<i>Staphylococcus epidermidis</i> (Methicillin Resistant (MRSE)) [ATCC 51625]	1 minute
<i>Staphylococcus pseudintermedius</i> [ATCC 49444]	1 minute
<i>Stenotrophomonas (Pseudomonas) maltophilia</i> [ATCC 25596]	1 minute
<i>Streptococcus pneumoniae</i> (Penicillin Resistant (PRSP)) [ATCC 700677]	1 minute

{Note to Agency: Text appearing in [brackets] or (parenthesis) is done to show interchangeable or optional text. Mold/Mildew (Mildewcidal Activity) - kills the growth of mold and mildew (at a 4 minute contact time): (*Aspergillus brasiliensis* (formerly known as *Aspergillus niger*) (ATCC 16404)) (and the odors caused by them) when applied to hard, non-porous environmental surfaces.

<i>Aspergillus brasiliensis</i>	4 Minutes
---------------------------------	-----------

Mold/Mildew (Mildewstatic Activity) - controls and prevents the growth of mold and mildew (at a 4 minute contact time): (*Aspergillus brasiliensis* (formerly known as *Aspergillus niger*)) (and the odors caused by them) when applied to hard, non-porous environmental surfaces.

<i>Aspergillus brasiliensis</i>	4 Minutes
---------------------------------	-----------

{OR}

[CLAIMS] [ORGANISMS]:

[Bacteria] [Bactericidal]:

Kills {insert one or more bacteria from table 1} on hard, non-porous [kitchen[†]] [bathroom] [restroom] [household] surfaces in 1 minute.

*[Viruses] [*Virucidal]:

*Kills {insert one or more virus from table 3} when used as directed on hard, non-porous inanimate [kitchen[†]] [bathroom] [restroom] [household] surfaces in 30 seconds, unless otherwise noted.

[Tuberculocidal] in the presence of 5% serum load and 1 minute contact time at 20°C on hard, non-porous environmental surfaces *Mycobacterium bovis* (BCG) (Organon Teknika, Durham, NC)

Tuberculocidal activity was determined by the AOAC Tuberculocidal Activity of Disinfectant spray Products

Malodor[s] [Activity] [Counteractancy] – eliminates [destroys] odors and odor-causing bacteria on hard, non-porous surfaces in restroom areas, behind and under sinks and counters, and storage areas [and other places where bacterial growth can cause malodors].

[Fungicidal]:

Kills {insert one or more fungi from table 6} on hard, non-porous [kitchen[†]] [bathroom] [restroom] [household] surfaces in 30 seconds, unless otherwise noted.

Non-Food Contact Surface Sanitizer for hard non-porous surfaces – [in the presence of 5% serum load] [and] [in] 10 seconds [contact time] [on hard, non-porous environmental surfaces]: {insert one or more organism from table 5}

Soft surface sanitizer: Kills {insert one or more organisms from table 7} on [household] surfaces in 30 seconds

DIRECTIONS FOR USE:

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

{Note to Agency: Text appearing in [brackets] or (parenthesis) is done to show interchangeable or optional text. Any language which appears between { braces } and is italicized is for administrative purposes only and will NOT appear on final printed label. Variables such as CAPITALIZATION, plurals or singular, bold and italics are optional unless specified in 40 CFR. Listed uses and use sites can be used partially or in their entirety. Underlined text is new. Strike-through text means it has been removed.}

{Note to reviewer: The following paragraph will be used on labels that list medical devices as defined by the FDA.}

This product is not to be used as a terminal sterilant/high level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the blood stream or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to pre-clean or decontaminate critical or semi-critical medical devices prior to sterilization or high level disinfection.

{Packaging Related Statement – Appropriate language will be selected from this list, depending on packaging.}

{For bottles with induction seal}

Unscrew cap, remove induction seal and place the [trigger] [sprayer] on the bottle.

{For bottles with sprayer}

{Operating Trigger}

To Operate:

Open hinged cover of sprayer and snap into opening on top. -or- Turn nozzle [counterclockwise] to "spray" -or- "stream" [setting], -or- Adjust [nozzle] to desired pattern.

{For containers with top pump dispensing mechanism}

To Open: [To Operate:] [To Unlock:] Twist [rotate][top][pump][head][counter] clockwise.

To Close: [To Lock:] [Twist][rotate][pump][head][counter][clockwise]

{Optional Directions for Product Supplied in Refill and Refillable Bottles :}

Refill only with this product.

To Refill [Spray Bottles]:

[Remove:]

Remove trigger sprayer from empty bottle.

[Pour :]

Unscrew cap [and remove induction seal] on refill and pour contents directly into empty bottle. Use a funnel to minimize product spills –or- waste. Pour product into spray bottle over sink or tub basin.

[Use:]

Replace trigger sprayer and use as you normally would.

-or- Unscrew cap and transfer your trigger to this bottle,

-or- Replace cap and use as you normally would.

{Refill}

[To Transfer This Product (or product name) Into Smaller Containers:] {32 oz. or less}:

[This product (or product name) may be transferred into clean, properly labeled containers for use elsewhere within your facility.] The small container and transfer items (funnels or hand pumps) must be clean and dry. Pour (or pump) product directly into a properly labeled smaller container being careful not to spill any product. Place sprayer back on the bottle. Refill in a well ventilated area.

{General Cleaner/Deodorizer Uses}

For Use as a Cleaner:

General [Kitchen[‡]/Bathroom/Household] Cleaning:

{Note to Agency: Text appearing in [brackets] or (parenthesis) is done to show interchangeable or optional text. Any language which appears between { braces } and is italicized is for administrative purposes only and will NOT appear on final printed label. Variables such as CAPITALIZATION, plurals or singular, bold and italics are optional unless specified in 40 CFR. Listed uses and use sites can be used partially or in their entirety. Underlined text is new. Strike-through text means it has been removed.}

[Remove cooking ingredients and cooked food from areas to be cleaned.] Spray product directly onto soils and wipe clean. [Rinse food contact surfaces with potable water].

{-or-}

Directly spray [this product] [-or- product name] to completely wet surface and wipe clean. No rinsing needed. [Rinse food contact surfaces with potable water]. Repeat for heavily soiled areas. For stubborn stains or heavily soiled areas or tougher jobs, allow product to penetrate [dirt] before wiping.

{-or- for containers with top pump dispensing mechanism}

Apply [product] on wipe [dish rag][sponge][paper towel] by pumping [pushing][dabbing][tapping]down on top of the unit once [twice][three] [a few] [several][times]. Wipe surface [clean]. [Rinse food contact surfaces with potable water].

To Clean/Remove Soap Scum:

Spray product onto soils and wipe clean [with a dry paper towel or lint-free cloth or sponge].

{-or-}

[Just] spray on and wipe off [with a dry paper towel or lint-free cloth or microfiber cloth or sponge]. No rinsing necessary. [For best results, use a dry paper towel or lint-free cloth or microfiber cloth or sponge]. Repeat for heavily soiled areas. For stubborn stains or heavily soiled areas or tougher jobs, allow product to penetrate [dirt -and/or- soap scum] before wiping. [For best results, use regularly to prevent dirt and soap scum build up].

To Clean [Nonporous] Surfaces [and] [or] [small areas of] [Floors]:

Spray soiled area, then wipe clean.

For spot cleaning:

Spray and wipe clean with damp sponge –or- mop or cloth.

For carpet spot cleaning:

[From a distance of 6-8 inches] Spray a light even coating on soiled area of the carpet until damp. Gently blot area with a clean, damp, color-safe cloth. Repeat as needed (for stubborn stains). Let air dry. Vacuum.

{Deodorization}

To Clean and Deodorize Toilets:

To clean and deodorize toilet bowl, spray on toilet sides and upper toilet bowl rim. Swab *{-or-}* brush all surfaces and flush.

{or}

To Deodorize:

Spray product directly onto [non-porous surfaces] *{or}* [Spray 6-8 inches from the surface] until completely wet. Let stand for [1 minutes] [contact time listed [below] [or] [on label]] [to kill odor causing [bacteria]

{Note to Agency: Text appearing in [brackets] or (parenthesis) is done to show interchangeable or optional text. Any language which appears between { braces } and is italicized is for administrative purposes only and will NOT appear on final printed label. Variables such as CAPITALIZATION, plurals or singular, bold and italics are optional unless specified in 40 CFR. Listed uses and use sites can be used partially or in their entirety. Underlined text is new. Strike-through text means it has been removed.}

[microorganisms] [organisms]]. Allow to air dry [or rinse]. For heavily soiled areas, a pre-cleaning is required. [If streaking is observed, wipe with a clean, damp [cloth or] [microfiber cloth or] [paper towel].]

For Use as a Cleaner and/or Deodorizer:

Spray 6-8 inches from [hard], [non-porous] [environmental] surfaces [until surface is thoroughly wet]. Allow to air dry [or rinse].

For use as sanitizer on Soft Surfaces^F [Fabrics^F]:

- 1- Hold bottle upright 6-8 inches from surfaces.
- 2- Spray until 10"x10" fabric area is wet. Do not saturate.
- 3- Let stand for 30 seconds. Allow to air dry
- 4- [For difficult odors or heavy fabrics, repeat application.][Reapply as necessary].
- 5- [To test for color fastness, locate a small inconspicuous area on your fabric and apply the solution as per the use directions. Once dry evaluate discoloration.]

{Allergen Destruction}

To [clean and] destroy specified allergens: [Set trigger to SPRAY.] Spray, wait 1 minute, and wipe excess. [Rinse.] Allow to air dry. [If streaking is observed, wipe with a clean, damp [cloth or] paper towel.]

Allergens:

- Cockroach matter -or- particles
- Dust mite matter -or- particles
- Pet dander -or- dog and cat dander

{Animal Market Antimicrobial Uses}

Animal Housing Facilities [in] [Veterinary] [Clinics] [Hospitals], [Farm Premises] [Including], [Equine production] [Farm], [Bovine production] [Farm], [Swine] [Farm] [Facilities], [Dairy] [Farm], [Rodent] [Facilities]:

For cleaning and disinfecting the following hard non-porous surfaces: feeding and watering equipment, utensils, instruments, cages, kennels, stables, catteries, etc.

1. Remove all animals and feed from premises, animal transportation vehicles, crates, etc.
2. Remove all litter, droppings and manure from floors, walls and surfaces of facilities (including barns, pens, stalls and chutes) occupied or traversed by animals.
3. Empty (or cover) all troughs, racks, and other feeding and watering appliances.
4. Thoroughly clean all surfaces with soap or detergent and rinse with potable water.
5. Saturate all surfaces [floors, walls, cages and other washable hard, non-porous environmental surfaces] by spraying with solution until (thoroughly) wet. To disinfect, all surfaces must remain wet for one (1) minute[†].
6. Immerse all halters, ropes, and other types of equipment used in handling and restraining animals, as well as forks, shovels, and scrapers used for removing litter and manure.
7. Ventilate buildings and other closed spaces. Do not house animals or employ equipment until treatment has been absorbed, set or dried.
8. For disinfection of feed racks, troughs, automatic feeders, fountains and water appliances [waterers] spray with solution [until completely wet] and let stand for one (1) minute[†]. Then thoroughly scrub all treated surfaces with soap or detergent, and rinse with potable water before reuse.

{Note to Agency: Text appearing in [brackets] or (parenthesis) is done to show interchangeable or optional text. Any language which appears between { braces } and is italicized is for administrative purposes only and will NOT appear on final printed label. Variables such as CAPITALIZATION, plurals or singular, bold and italics are optional unless specified in 40 CFR. Listed uses and use sites can be used partially or in their entirety. Underlined text is new. Strike-through text means it has been removed.}

[¶]Use a 3 minute contact time for Foot and Mouth Disease virus (FMDv) {Note to reviewer: This qualifier will only be used on product labels with a FMDv claim}

Poultry Houses and Poultry Hatcheries:

For cleaning and disinfecting the following hard non-porous surfaces: feeding and watering equipment, utensils, instruments, cages, kennels, stables, catteries, etc.

1. Remove all poultry and feeds from premises, trucks, coops, and crates.
2. Remove all litter and droppings from floors, walls and surfaces of facilities occupied or traversed by poultry.
3. Empty all troughs, racks, and other feeding and watering appliances.
4. Thoroughly clean all surfaces with soap or detergent and rinse with water.
5. Saturate all surfaces [floors, walls, cages and other washable hard, non-porous environmental surfaces] by spraying with solution until (thoroughly) wet. To disinfect, all surfaces must remain wet for one (1) minute[¶].
6. Ventilate buildings, coops, and other closed spaces. Do not house poultry or employ equipment until treatment has been absorbed, set, or dried.
7. Thoroughly scrub treated feed racks, troughs, automatic feeders, fountains, and waterers with soap or detergent, and rinse with potable water before reuse.

[NOTE: Not for use on handling and restraining equipment such as leashes, muzzles, halters or ropes, as well as forks, shovels, and scrapers used for removing litter and manure.]

For Use To Disinfect inanimate environmental surfaces associated with Aquaculture including vehicles, nets, boots, waders, dive suits, hoses, brushes and other similar equipment:

1. Remove all feeds from premises or vehicles.
2. Remove excess debris
3. Saturate all surfaces [of washable hard, non-porous environmental surfaces] by spraying with solution until (thoroughly) wet. To disinfect, all surfaces must remain wet for one (1) minute[¶].
4. Rinse the surfaces thoroughly with water.
5. Let air dry.

For Treatment of Kennels and Cages:

1. Remove all animals and feeds from areas being treated.
2. Remove all litter and [manure] [feces] [fecal matter] from floors, walls and surfaces of kennels, cages, and other facilities occupied or traversed by animals.
3. Empty or cover all racks, [bowls] and other feeding and watering appliances.
4. Thoroughly clean all surfaces with this product {or product name} and rinse with water.
5. Apply solution to [floors], [walls], cages and other [washable] hard, non-porous environmental surfaces. For smaller surfaces, use a trigger spray bottle to spray all surfaces with solution until wet. To disinfect, all surfaces must remain wet for one (1) minute[¶].
6. Immerse all leashes, [collars] and other types of equipment used in handling and restraining animals, as well as [forks], [shovels], and scrapers used for removing [litter] and [manure] [feces] [fecal matter].
7. Ventilate buildings and other closed spaces. Do not house animals or re-employ equipment until product has dried.
8. For disinfection of feed racks, troughs, automatic feeders, fountains and water appliances [waterers] spray with solution [until completely wet] and let stand for one (1) minute[¶]. Then thoroughly scrub all treated surfaces with soap or detergent, and rinse with potable water before reuse.

{Note to Agency: Text appearing in [brackets] or (parenthesis) is done to show interchangeable or optional text. Any language which appears between { braces } and is italicized is for administrative purposes only and will NOT appear on final printed label. Variables such as CAPITALIZATION, plurals or singular, bold and italics are optional unless specified in 40 CFR. Listed uses and use sites can be used partially or in their entirety. Underlined text is new. Strike-through text means it has been removed.}

Emergency Preparedness Program (Animal Health):

[Disinfection helps to control and reduce cross-contamination on treated surfaces of the following organisms: Newcastle Disease Virus, Foot and Mouth Disease Virus, Porcine Reproductive and Respiratory Syndrome Virus, ~~Transmissible Gastroenteritis~~, Equine Influenza Virus, Equine Herpes Virus (EHV-1), Avian Influenza A virus, ~~Salmonella pullorum~~, ~~Avian Infectious Bronchitis Virus and Infectious Laryngotracheitis Virus.~~] [Use solution to clean and disinfect agricultural facilities and equipment, military facilities and equipment; airport facilities and equipment, port facilities and equipment, rail facilities and equipment, and other shipping facilities and equipment where animals or soils suspected of harboring OIE List A organisms may be present.]

1. Pre-clean heavily soiled surfaces with this product {or product name} and rinse with water.
2. Apply product {or product name}. Use a trigger spray bottle to spray all surfaces with solution until wet.
3. Allow product to remain in contact with surfaces for one (1) minute¹.
4. All treated surfaces that will contact feed or drinking water must be thoroughly scrubbed with soap or detergent and then rinsed with potable water before reuse.

For Use in Facilities used for Temporary Confinement of Animals:

[Use solution to clean and disinfect inanimate surfaces associated with facilities used for the temporary confinement of animals. Sites may include, but are not limited to, barns, sheds, stables, pens, cages, and associated access alleys or walkways. The product {or product name} may also be used to clean and disinfect equipment related to the maintenance of animals found at fairs, exhibitions, animal auction yards, animal show/boarding facilities, or other similar agricultural facilities designed for temporary housing of animals.]

1. Pre-clean heavily soiled surfaces with this product {or product name} and rinse with water.
2. Apply product {or product name}. Use a trigger spray bottle to spray all surfaces with solution until wet.
3. Allow product {or product name} to remain in contact with surfaces for one (1) minute¹.

{General Antimicrobial Uses}

For Use as a One-Step Cleaner/Disinfectant [Product]:

1. Pre-clean heavily soiled areas.
2. Spray 6-8 inches from surface [until surface is thoroughly wet].
3. Allow surface(s) [Allow this product to penetrate and] [to] remain wet for 1 minute.
4. [Wipe] [surfaces dry] [or rinse]. [If streaking is observed, wipe with a clean, damp [cloth or] [microfiber cloth or] [paper towel]]. [Allow to air dry].[Let air dry].

For Use as a Cleaner/Disinfectant in non-food handling areas of Food Establishments [Food Processing Plants]:

1. Pre-clean heavily soiled areas.
2. Spray 6-8 inches from surface [until surface is thoroughly wet].
3. Allow surface(s) [Allow this product to penetrate and] [to] remain wet for 1 minute.
4. Wipe [surfaces dry] [or rinse]. [If streaking is observed, wipe with a clean, damp [cloth or] [microfiber cloth or] [paper towel]].

For Use to Clean and Disinfect [Bathtub], [shower stalls] [and] [Other] Large, Open Areas with Floor Drains:

1. Pre-clean heavily soiled areas.

{Note to Agency: Text appearing in [brackets] or (parenthesis) is done to show interchangeable or optional text. Any language which appears between { braces } and is italicized is for administrative purposes only and will NOT appear on final printed label. Variables such as CAPITALIZATION, plurals or singular, bold and italics are optional unless specified in 40 CFR. Listed uses and use sites can be used partially or in their entirety. Underlined text is new. Strike-through text means it has been removed.}

2. Spray 6-8 inches from surfaces of floors, walls and ceilings making sure not to over spray. To disinfect, all surfaces must remain wet for one (1) minute.
3. [Scrub using a deck brush or other coarse material as necessary].
4. Rinse surfaces thoroughly and let air dry.

{Note: Next sentence is optional language}

(NOTE: Floors will be slippery when wet or contaminated with foreign materials.)

To Pre-clean Instruments Prior to Terminal Sterilization/High Level Disinfection [As a pre-cleaning spray]:

1. Place instruments into a suitable container
2. Spray this product onto instruments to thoroughly wet all surfaces
3. Let stand for up to 1 minute
4. Rinse instruments
5. Follow with an appropriate disinfection process

Note: Cleaning of critical and semi-critical devices must be followed by an appropriate terminal sterilization/high-level disinfection process.

To Disinfect Non-Critical[‡], Pre-cleaned Instruments:

1. Instruments must be thoroughly pre-cleaned to remove excess organic debris, rinsed, and rough dried.
2. (Clean and rinse lumens of hollow instruments before spraying with this product).
3. Spray all surfaces of instruments with this product *{or product name}* until thoroughly wet.
4. Let stand for 1 minute [at room temperature].
5. Wipe with a clean, damp cloth or paper towel and allow to air dry.

[‡]Non-Critical medical devices are items that come in contact only with intact skin.

Note: Cleaning of critical and semi-critical devices must be followed by an appropriate terminal sterilization/high-level disinfection process.

***KILLS HIV, HCV and HBV ON PRE-CLEANED ENVIRONMENTAL SURFACES/OBJECTS PREVIOUSLY SOILED WITH BLOOD/BODY FLUIDS** in health care settings (Hospitals, Nursing Homes) and other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood / body fluids, and in which the surfaces / objects likely to be soiled with blood / body fluids can be associated with the potential for transmission of Human Immunodeficiency Virus Type 1 (HIV-1) (associated with AIDS), Hepatitis C Virus (HCV) or Hepatitis B Virus (HBV).

SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV-1 (AIDS Virus), HCV OR HBV OF SURFACES/OBJECTS SOILED WITH BLOOD/BODY FLUIDS.

Personal Protection: Disposable latex or vinyl gloves, gowns, face masks, and eye coverings, must be worn during all cleaning of body fluids, blood, and decontamination procedures.

Cleaning Procedures: Blood / body fluids must be thoroughly cleaned from surfaces / objects before application of this product [or product name].

Contact Time: Allow surface to remain wet for 30 seconds [to kill HIV-1, HCV and HBV] [use a 1 (one) minute contact time to kill all other organisms cited on label]

{Note to Agency: Text appearing in [brackets] or (parenthesis) is done to show interchangeable or optional text. Any language which appears between { braces } and is italicized is for administrative purposes only and will NOT appear on final printed label. Variables such as CAPITALIZATION, plurals or singular, bold and italics are optional unless specified in 40 CFR. Listed uses and use sites can be used partially or in their entirety. Underlined text is new. Strike-through text means it has been removed.}

Disposal of Infectious Material: Cleaning materials used that may contain blood and other body fluids must be autoclaved and disposed of according to Federal, State, and local regulations for infectious waste disposal.

For Use as a Disinfectant with (a) (an) [Mechanical Sprayer] [Pressure Sprayer] [Electrostatic Sprayer]:

1. Fill tank with solution.
2. Pre-clean heavily soiled areas.
3. Spray hard, non-porous environmental surfaces, making sure to wet surfaces thoroughly.
4. All surfaces must remain wet for 1 minute.
5. Let air dry.

{For containers with top pump dispensing mechanism}

To Disinfect:

Pre-clean surface. Apply to surface until thoroughly wet. [Thoroughly wet surface.] Allow [surface} to remain wet for 1 minute

For use as a [Non-Food Contact Sanitizer] [Broad spectrum Non-Food Contact Sanitizer]:

For use as a Non-Food Contact Sanitizer: Pre-clean heavily soiled areas. Spray product directly onto [non-porous surfaces] *{or}* [Spray 6-8 inches from the surface] until completely wet. *{-or-}* [Directly] apply [solution] [this product] [-or- product name] with trigger sprayer to completely wet [hard] [non-porous] surface. Allow the surface to remain [visibly] wet ~~for 10~~for 10 seconds. Wipe surfaces dry [or rinse] [or allow to air dry].

To Kill Fungi/Yeast:

Pre-clean heavily soiled areas. Spray product directly onto [non-porous] surfaces *{OR}* [Spray 6-8 inches from the surface] until completely wet. Allow surface to remain wet for thirty (30) seconds for Fungi (*Trichophyton interdigitalementagrophytes*) and 1 minute for Yeast (*Candida albicans*). Wipe surfaces (and let air dry).

To Kill Mold and Mildew:

Pre-clean surfaces. Spray product directly onto [non-porous] surfaces *{OR}* [Spray 6-8 inches from the surface] until completely wet. Allow the surface to remain [visibly] wet for 4 (four) minutes. Allow [Let] to air dry [or wipe surface dry] [or rinse]. [If streaking is observed, wipe with a clean, damp [cloth or] [microfiber cloth or] [paper towel]].

To Control Mold and Mildew:

Spray product directly onto [non-porous surfaces] *{OR}* [Spray 6-8 inches from the surface] until completely wet. Allow [Let] to air dry [or wipe surface dry] [or rinse]. [If streaking is observed, wipe with a clean, damp [cloth or] [microfiber cloth or] [paper towel]]. Repeat application weekly or when growth reappears.

{Mold & Remediation Antimicrobial Uses}

Mold Remediation:

1. Repair the source of moisture (stop leaks, etc) to eliminate conditions favorable to mold growth such as moisture ingress and high relative humidity and to prevent further mold growth and/or re-growth.
2. Wipe the wall with a clean cloth wetted with clean water or with this product *{or product name}*. Dispose of the cleaning cloth in a well-sealed plastic bag.
3. Spray this product *{or product name}* to contaminated hard, non-porous surfaces until completely wet.
4. Allow surface to remain wet for 4 minutes.
5. Wipe surfaces dry (or) [rinse] [[let] [allow to] air dry].

{Note to Agency: Text appearing in [brackets] or (parenthesis) is done to show interchangeable or optional text. Any language which appears between { braces } and is italicized is for administrative purposes only and will NOT appear on final printed label. Variables such as CAPITALIZATION, plurals or singular, bold and italics are optional unless specified in 40 CFR. Listed uses and use sites can be used partially or in their entirety. Underlined text is new. Strike-through text means it has been removed.}

For use as a Boot / Shoe (Wash) (Disinfectant):

To prevent cross contamination between treated surfaces into animal areas, shoe washes should be accessible at all entrances to building. Scrape waterproof shoes or boots and apply this product [or product name] until thoroughly wet. Allow product to remain in contact with shoes or boots for 1 minute[†] and let air dry. All treated surfaces that will contact feed or drinking water must be thoroughly scrubbed with soap or detergent and then rinsed with potable water before reuse.

For use as a Boot / Shoe Sanitizer:

To prevent cross contamination between treated surfaces into animal areas, shoe washes should be accessible at all entrances to building. Scrape waterproof shoes or boots and apply this product [or product name] until thoroughly wet. Allow product to remain in contact with shoes or boots for 10 seconds and let air dry. All treated surfaces that will contact feed or drinking water must be thoroughly scrubbed with soap or detergent and then rinsed with potable water before reuse.

{Spa and Salon Antimicrobial Uses}

To Clean and Disinfect Barber and Beauty/Manicure Instruments and Tools:

1. Pre-clean heavily soiled items.
2. Spray all surfaces of pre-cleaned combs, brushes, scissors, clipper blades, razors, manicure implements and other non-porous instruments with this product *{or product name}* until thoroughly wet.
3. Let stand for 1 minute.
4. Rinse the surfaces thoroughly with water.
5. Let air dry before reuse.

For use as a disinfectant, (*virucide) on hard, non-porous (inanimate) (environmental) surfaces of (non-circulating) (and) (circulating) footbaths (and) (pedicure foot spa equipment):

- 1- **Drain:** Drain the water (from) (the unit) (foot spa) (basin) (bowl) and remove any visible debris.
- 2- **Clean:** Thoroughly clean all (hard, non-porous (inanimate) (environmental)) surfaces with this product [or product name] (soap) (detergent), then rinse with water and drain.
- 3- **Apply:** (Apply) (Spray) this product [or product name] (6-8 inches from surfaces) (of footbath) (on all non-porous surfaces) with a trigger sprayer.
- 4- **Scrub:** Brush or swab thoroughly and allow solution to stand for 1 minute.
- 5- **Rinse** all [(cleaned) (treated)] surfaces with fresh water and drain [the rinse water].

{Industrial and Institutional/Residential Antimicrobial Uses}

For Use as (Daily) Bathroom (Restroom) (One-Step) Cleaner/Disinfectant:

1. Pre-clean heavily soiled areas.
2. Spray 6-8 inches from surface [until surface is thoroughly wet].
3. Allow surface(s) [Allow this product to penetrate and] [to] remain wet for 1 minute.
4. Wipe [surfaces dry] [or rinse]. [If streaking is observed, wipe with a clean, damp [cloth or] [microfiber cloth or] [paper towel]].

{Note: Next sentence is optional language}

(Note - Floors will be slippery when wet or contaminated with foreign materials.)

{Note to Agency: Text appearing in [brackets] or (parenthesis) is done to show interchangeable or optional text. Any language which appears between { braces } and is italicized is for administrative purposes only and will NOT appear on final printed label. Variables such as CAPITALIZATION, plurals or singular, bold and italics are optional unless specified in 40 CFR. Listed uses and use sites can be used partially or in their entirety. Underlined text is new. Strike-through text means it has been removed.}

For Use as a Bowl Cleaner/Disinfectant in Toilet Bowls:

1. Pre-clean heavily soiled areas.
2. Empty toilet bowls by forcing water through the trap. Spray 6-8 inches from exposed surfaces in toilet bowls.
3. Swab entire surface area especially under the rim.
4. Allow entire surface to remain wet for one (1) minutes.
5. Flush toilet and rinse swab applicator thoroughly.

{Hospital/Lab Antimicrobial Uses}

For Use to Clean and Disinfect Manikins Used in CPR Training:

Manikins should be cleaned as soon as possible at the end of each class to avoid drying of contaminants on surfaces. Disassemble the manikin as directed by manufacturer's instructions. Spray all surfaces (of manikins) with this product {or product name} until thoroughly wet. Let stand for 1 minute and rinse with potable water.

To Disinfect Surfaces in Pharmaceutical and Cosmetic Processing Facilities:

1. Pre-clean heavily soiled areas.
2. Spray 6-8 inches from surface [until surface is thoroughly wet].
3. Allow surface(s) [Allow this product to penetrate and] [to] remain wet for 1 minute.
4. Rinse with sterile water.
5. (Wipe with a dry, clean cloth) (and) (or) (let air dry).

For Use To Clean and Disinfect Life Science Laboratory Surfaces, Instruments, and Glassware:

1. Pre-clean heavily soiled areas.
2. Spray 6-8 inches from surface [until surface is thoroughly wet].
3. Allow surface(s) [Allow this product to penetrate and] [to] remain wet for 1 minute.
4. For glassware/instrument: Rinse surface thoroughly and let air dry before reuse. For surfaces: (Wipe with a dry, clean cloth) (and) (or) (let air dry). [If streaking is observed, wipe with a clean, damp [cloth or] [microfiber cloth or] [paper towel]].

STORAGE AND DISPOSAL *{For Residential use}*

{Note to reviewer: Sizes for Residential use will be 1 gallon or less}

PESTICIDE STORAGE: Store in original container in areas inaccessible to small children. Keep securely closed.

CONTAINER HANDLING: Non-refillable container. Do not reuse or refill this container. Wrap [container] and put in trash or offer for recycling [if available].

{For bottles intended to be refilled by the consumer-i.e. not for re-sale}

STORAGE AND DISPOSAL:

PESTICIDE STORAGE: Store this product in areas inaccessible to small children. Keep securely closed.

{Note to Agency: Text appearing in [brackets] or (parenthesis) is done to show interchangeable or optional text. Any language which appears between { braces } and is italicized is for administrative purposes only and will NOT appear on final printed label. Variables such as CAPITALIZATION, plurals or singular, bold and italics are optional unless specified in 40 CFR. Listed uses and use sites can be used partially or in their entirety. Underlined text is new. Strike-through text means it has been removed.}

CONTAINER HANDLING: Do not reuse or refill this container except as described in the directions for use. Refill only with this product [-or-product name]. Offer empty container for recycling. If recycling is not available, discard in trash.

STORAGE AND DISPOSAL *{For Institutional use}*

{For sizes 1 gallon or less}

PESTICIDE STORAGE: Store in original container in areas inaccessible to small children. Keep securely closed.

CONTAINER HANDLING: Non-refillable container. Do not reuse or refill empty container. Wrap [container] and put in trash or offer for recycling [if available].

{For bottles (1 gallon or less) intended to be refilled by the consumer-i.e. not for re-sale}

STORAGE AND DISPOSAL:

PESTICIDE STORAGE: Store this product in areas inaccessible to small children. Keep securely closed.

CONTAINER HANDLING: Do not reuse or refill this container except as described in the directions for use. Refill only with this product [-or-product name]. Offer empty container for recycling. If recycling is not available, discard in trash.

{For sizes over 1 gallon}

STORAGE AND DISPOSAL:

Do not contaminate water, food or feed by storage or disposal.

PESTICIDE STORAGE: Store in securely [tightly] closed container in areas inaccessible to small children. [Store away from direct sunlight and heat [extreme temperatures]]. [Do not mix with other cleaning or disinfecting products].

PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. [For more information on the disposal of unused, unwanted product and the cleanup of spills, contact the EPA Regional Office or the Manufacturer for guidance].

CONTAINER HANDLING: Non-refillable container. Do not reuse or refill this container. Offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill; or incinerate, or, if allowed by state and local authorities, burn. If burned, stay out of smoke.

{For labels with veterinary use patterns}

ENVIRONMENTAL HAZARDS: This product is toxic to birds, fish and aquatic invertebrates. Caution should be used when applying indoors because pets may be at risk.

{Reference to SDS will not be on the residential use products}
